A comprehensive diagram illustrating the riverbank improvement projects along the Hakodogawa river. The diagram shows a central river channel with various improvement zones marked by colored lines and numbered circles. Surrounding the diagram are several photographs and descriptive text for each zone:

- 博多リバーライン核** (Hakodogawa River Line Core): A photograph showing a modern riverbank with a walkway and buildings.
- いざないの水辺** (Izanai Waterfront): A photograph of a festival with many people gathered on the riverbank.
- にぎわいの水辺** (Nigirawa Waterfront): A photograph of a boat festival with people on a boat.
- みどりの水辺** (Midori Waterfront): A photograph of a park-like area with a walkway and buildings.
- 横断面** (Cross-section): A technical diagram showing the vertical profile of the riverbank, including the riverbed, water level, and various structures like walkways and plantings.
- 8月上旬 魚のつかみどり** (Early August Fish Catching): A photograph of a festival where people are catching fish.
- 5月末 和祭り込み** (End of May Japanese Festival): A photograph of a festival with people on a boat.
- 11月上旬 リバーピクニック** (Early November River Picnic): A photograph of a picnic area with people and buildings.
- 8月下旬 観人地蔵まつり** (Late August Kaminariji Festival): A photograph of a festival with many people and lights.
- 8月上旬 灯明まつり** (Early August Light Festival): A photograph of a festival with many lights.
